

We spent the first week of August in Bonaire again in 2007. This trip was essentially a repeat of our 2006 trip, except we stayed in a 2-bedroom apartment at Den Laman rather than a one-bedroom. Also, we opted for all shore dives and no boat dives this year. We did a number of dives on the Bari Reef behind the Sand Dollar/Den Laman properties – probably half of our total dives. See the 2006 trip report for more details. There is a separate slide show with photos from this trip posted on the scuba slide show page.
